IMMERSE YOURSELF IN AN AUTHENTIC FLYING EXPERIENCE

This software tailored for the enterprise allows you to hone your piloting skills without the potential risks and costs associated with real-life training. Every aspect of DJI's unique flight control technology is analyzed and adapted to create the most realistic simulated flying experience.

Three Flight Modes

5 POVs

Comprehensive Physics Engine

FLY IN A LIFE-LIKE ENVIRONMENT

Experience feedback from the surroundings just as you would piloting a real drone.

Wind Effects

Ground Effects

Simulated Crashes

A TRAINING MODULE TO IMPROVE EVERY SKILL

SKILLS TRAINING

Perfect your piloting skills with exercises: basic flight tutorials, hovering and flight route training, and practice tests.

FREE FLIGHT

Gain piloting experience by exploring a variety of environments and acclimating to different flight conditions.

APPLICATION TRAINING

Be ready for your operations by training for specific workflows such as power line inspections or search and rescue missions.

SEAMLESS CONNECTIVITY

Set up and access the Flight Simulator easily through its seamless connection to Windows PCs and DJI remote controllers. Compatible remote controllers: Phantom Series, Mavic 2, Mavic Air.
